

Where to Pack Your Picnic

Many wineries encourage folks to bring a picnic to the winery. Of course, you can buy wine from the wineries, but do not bring other alcoholic beverage, And most strongly discourage you from bringing pets.

Here's a short list of Midwest wineries with picnic grounds for their guests. Many more will welcome you with your picnic basket! Please contact the wineries nearest you, or near your vacation destination, to find out if you can bring food or snacks with you.
